Definitions

Terms used in the Disclosure of Ownership and Control Interest Statement have the meanings set forth at 42 C.F.R § 455.101. Such definitions, effective as of the date of these Instructions, are set forth below for your convenience.

Agent means any person who has been delegated the authority to obligate or act on behalf of a provider.

Disclosing entity means a Medicaid provider (other than an individual practitioner or group of practitioners), or a fiscal agent.

Other disclosing entity means any other Medicaid disclosing entity and any entity that does not participate in Medicaid, but is required to disclose certain ownership and control information because of participation in any of the programs established under title V, XVIII, or XX of the Social Security Act (the "Act"). This includes: any hospital, skilled nursing facility, home health agency, independent clinical laboratory, renal disease facility, rural health clinic, or health maintenance organization that participates in Medicare (title XVIII); any Medicare intermediary or carrier; and any entity (other than an individual practitioner or group of practitioners) that furnishes, or arranges for the furnishing of, health-related services for which it claims payment under any plan or program established under title V or title XX of the Act.

As used in the Disclosure of Ownership and Control Interest Statement, "Disclosing Entity" includes a "disclosing entity" and a "other disclosing entity", as those terms are defined above.

Group practice or group of practitioners means two or more health care practitioners who practice their profession at a common location (whether or not they share common facilities, common supporting staff, or common equipment).

Indirect ownership interest means an ownership interest in an entity that has an ownership interest in the disclosing entity. This term includes an ownership interest in any entity that has an indirect ownership interest in the disclosing entity.

Managing employee means a general manager, business manager, administrator, director, or other individual who exercises operational or managerial control over, or who directly or indirectly conducts the day-to-day operation of an institution, organization, or agency.

Ownership interest means the possession of equity in the capital, the stock, or the profits of the disclosing entity.

Person with an ownership or control interest means a person or corporation that:

a) has an ownership interest totaling 5 percent or more in a disclosing entity;
b) has an indirect ownership interest equal to 5 percent or more in a disclosing entity;
c) has a combination of direct and indirect ownership interests equal to 5 percent or more in a disclosing entity;
d) owns an interest of 5 percent or more in any mortgage, deed of trust, note, or other obligation secured by the disclosing entity if that interest equals at least 5 percent of the value of the property or assets of the disclosing entity;
e) is an officer or director of a disclosing entity that is organized as a corporation; or
f) is a partner in a disclosing entity that is organized as a partnership.

Significant business transaction means any business transaction or series of transactions that, during any one fiscal year, exceed the lesser of $25,000 and 5 percent of a provider's total operating expenses.

Subcontractor means:

a) an individual, agency, or organization to which a disclosing entity has contracted or delegated some of its management functions or responsibilities of providing medical care to its patients; or
b) an individual, agency, or organization with which a fiscal agent has entered into a contract, agreement, purchase order, or lease (or leases of real property) to obtain space, supplies, equipment, or services provided under the Medicaid agreement.

Supplier means an individual, agency, or organization from which a provider purchases goods and services used in carrying out its responsibilities under Medicaid (e.g., a commercial laundry, a manufacturer of hospital beds, or a pharmaceutical firm).

Wholly owned supplier means a supplier whose total ownership interest is held by a provider or by a person, persons, or other entity with an ownership or control interest in a provider.

Determination of Ownership or Control Percentages

Guidance regarding the determination of certain ownership or control percentages is set forth in 42 C.F.R. § 455.102. Such guidance, effective as of the date of these Instructions, is set forth below for your convenience.

Indirect ownership interest. The amount of indirect ownership interest is determined by multiplying the percentages of ownership in each entity. For example, if A owns 10 percent of the stock in a corporation which owns 80 percent of the stock of the disclosing entity, A's interest equates to an 8 percent indirect ownership interest in the disclosing entity and must be reported. Conversely, if B owns 80 percent of the stock of a corporation which owns 5 percent of the stock of the disclosing entity, B's interest equates to a 4 percent indirect ownership interest in the disclosing entity and need not be reported.

Person with an ownership or control interest. Please also refer to the Definition Section. In order to determine percentage of ownership, mortgage, deed of trust, note, or other obligation, the percentage of interest owned in the obligation is multiplied by the percentage of the disclosing entity's assets used to secure the obligation. For example, if A owns 10 percent of a note secured by 60 percent of the provider's assets, A's interest in the provider's assets equates to 6 percent and must be reported. Conversely, if B owns 40 percent of a note secured by 10 percent of the provider's assets, B's interest in the provider's assets equates to 4 percent and need not be reported.

Provider Type Scenarios

The scenarios below are examples of how the Disclosure of Ownership and Control Interest Statement may be completed.

Individual Practitioner – An individual practitioner would check the “Individual Practitioner” checkbox in the Practice Information Section, indicate “None” in Section I: Provider Ownership and Control Interest, indicate “Yes” or “No” in the remaining check boxes as appropriate then sign and date the Statement.

Group of Practitioners – A group practice would check the “Group Practice” checkbox in the Practice Information Section, and complete a Disclosure of Ownership and Control Interest Statement for the Group Practice. Each individual participating under the Group Practice’s contract with the Health Plan that is either an employee or co-owner would fill out a Disclosure of Ownership and Control Interest Statement as an individual and list the Group Practice name in the “DBA Name” field in the Practice Information Section, use the Group Practice address and use the practitioner’s individual TIN or SSN. As an alternative to each individual completing a Statement, the Group Practice may complete, execute and submit a Statement on his or her behalf as long as the person executing the Statement is legally authorized, as an agent or attorney-in-fact, to do so.

Hospital or Hospital System – A hospital would check the “Disclosing Entity” checkbox in the Practice Information Section, and complete a Disclosure of Ownership and Control Interest Statement for the hospital. Each individual participating under the hospital’s contract with the Health Plan that is either an employee or co-owner would fill out a Disclosure of Ownership and Control Interest Statement as an individual and list the hospital name in the “DBA Name” field in the Practice Information Section, use the hospital address and use the practitioner’s individual TIN or SSN. As an alternative to each individual completing a Statement, the hospital may complete, execute and submit a Statement on his or her behalf as long as the person executing the Statement is legally authorized, as an agent or attorney-in-fact, to do so.

Independent Clinical Lab – An independent clinical laboratory would check the “Disclosing Entity” checkbox in the Practice Information Section, and complete a Disclosure of Ownership and Control Interest Statement for the laboratory. Each individual participating under the

laboratory's contract with the Health Plan that is either an employee or co-owner would fill out a Disclosure of Ownership and Control Interest Statement as an individual and list the laboratory name in the "DBA Name" field in the Practice Information Section, use the laboratory address and use the practitioner's individual TIN or SSN. As an alternative to each individual completing a Statement, the laboratory may complete, execute and submit a Statement on his or her behalf as long as the person executing the Statement is legally authorized, as an agent or attorney-in-fact, to do so.
